New Policy By Government Expected To Aid In Replenishing Stocks

PORTER BECOMES NEW O. P. A. HEAD

WASHINGTON, Feb. 22.—(INS)—A new government policy designed to speed up production and return shortage items to the market goes into effect today with Paul A. Porter taking over the Office of Price Administration.

Porter is ready to take the oath as OPA administrator with complete charge of prices, following his unanimous confirmation by the senate in a burst of speed to succeed Chester Bowles who was appointed economic stabilizer.

Will Release Surplus

It was disclosed that one of the first steps Porter will take will be to release huge quantities of manufactured products, rather than in warehouses, a situation charged up to him by his predecessor.

Among the items which will be released in the near future are men's overcoats, suits, shirts, underwear, socks, various types of women's clothing and others.

These items, now much in demand, were held in warehouses because manufacturers had been unable to obtain cheap raw materials, however, and continued (Continued on Page Two)

PA NEW OBSERVES

Russell Sch. of R. D. No. 3, reported to PA News that he saw a robin near his place early this morning.

Posts that support the new parking meters are being erected along Washington street. PA News notes that they are being placed somewhat further in from the curb than the original posts.

Washington's birthday is being observed in the city and nation today. Numerous special programs were presented in the city today, while some institutions were closed in the observance.

Red detour marks are as scarce as hen's teeth on the Detour Bulletin issued by the Pennsylvania Department of Highways for the current period, an examination of the map shows. There are several construction projects in Western Pennsylvania, where traffic is being maintained, which were halted by winter, but the only real detour in Western Pennsylvania is on a rural route, between U. S. 19 and McMichael's Corners, on the road to Conneaut Lake. This detour is 12½ miles long.

Canada Prepares To Make Early Answer To Charge Of Russia

OTTAWA, Feb. 22.—(INS)—Prime Minister Mackenzie King, embroiled in Canada's first major diplomatic dispute with a foreign country, toiled today on a message answering Russia's charge of unfriendliness, and there were indications that Washington was being informed of his progress.

To Answer Soon

Sources close to the tactful King said it was important to answer as soon as possible the Russian accusation that his handling of the Canadian spy plot was not compatible with friendly relations between the two countries.

They said Canada will make every effort to assure Russia that Canada's principal interest is in rooting out and prosecuting the Canadian citizens who disclosed secret information to Soviet agents. Three different government officials went out of their way today to inform newspaper reporters that Canada is not contemplating a break with Russia.

But one of them conceded that the abrupt Russian message charging that the espionage revelations are really a campaign against the Soviet has changed King's original plans to clarify the spy investigation. He added:

"It is probable that any answer will be discussed with Washington and London in view of the new Russian position."

Soviet Attacks Upon Canada Are Continued

MOSCOW, Feb. 22.—(INS)—Official Soviet sources continued today to attack Premier W. L. Mackenzie King of Canada for leading what they termed an "unbridled anti-Soviet campaign" in connection with the dominion's espionage disclosures.

The newspaper Izvestia, taking up where Pravda left off yesterday, declared the alleged campaign is designed to "distract public attention in democratic countries from the scandalous position in which British foreign secretary Bevin placed himself and to come to his rescue."

Izvestia belabored Bevin for the attitude he adopted before the UNO security council, which it was charged was "always in sharp contradiction to democratic principles and the rights of small peoples."

Russia has admitted receiving atomic and radar secrets in Canada but insists the dominion is exaggerating their importance for international political purposes.

Soviet-Canadian Dispute Threat To World Peace

WASHINGTON, Feb. 22.—(INS)—Informed observers in Washington today viewed the current Soviet-Canadian dispute over Russian espionage in Canada as a crucial diplomatic controversy which may threaten world peace plans.

The United States attitude, as outlined by leading spokesmen, is to remain aloof from the quarrel, possibly on the theory that the entire controversy is a skilled diplomatic maneuver striking at fundamental questions of postwar international relationships.

From the start of the situation the State department, the White House and the Federal Bureau of Investigation have declined to comment or commit themselves on the reported spy plot. The Russian espionage activity broke into the open a week ago. At that time (Continued on Page Two)

Says U. S. Must Keep Bomb Secret

PHILADELPHIA, Feb. 22.—(INS)—The secret of the atomic bomb must remain with the United States, was the opinion advanced today by Vice Adm. William H. P. Blandy, joint task force commander for the atomic bomb tests slated for Bikini atoll in the Marshall Islands beginning May 15.

"You cannot achieve peace," he declared, "by simply laying down your arms."

TO SEEK RELEASE OF ARMY FATHERS

WASHINGTON, Feb. 22.—(INS)—Sen. Revercomb (R) W. Va., revealed he will press for his bill to compel the armed services to release fathers.

Revercomb said his action will be taken at a Senate Military Affairs committee meeting Tuesday. The senator struck at the War department's rejection of the father release proposal submitted by the Johnson subcommittee on demobilization. He declared the release of drafted fathers is practical, and is "an obligation the services owe to the men's families."

New Threats Of National Strikes Facing Nation

National Telephone Strike Is Set For March 7—Coal-Wage Battle Also Looms

STRIKE FRONT IS LITTLE CHANGED

WASHINGTON, Feb. 22.—(INS)—The restive labor scene was dominated today by a threatened national telephone strike and the imminence of another explosive coal-wage battle.

Labor department officials were hopeful that the scheduled March 7 walkout by 250,000 telephone workers may be averted, but for the present withheld prediction on the anticipated wage campaign of John L. Lewis' 500,000 miners.

Schwelmbach To Intervene

Secretary of Labor Lewis B. Schwelmbach already has accepted a union invitation to intervene in the telephone dispute. Joseph A. Beine, president of the National Federation of Telephone Workers, is expected in Washington late next week for a conference with Schwelmbach and his aides.

The unanimous action of the NFW executive board in calling the work stoppage for 6 a. m. March 7, was announced in Memphis, Tenn., where the telephone union leaders have been meeting for several days.

Defies Forecasts

The outcome of the traditional "spring" coal negotiations defied positive forecasts pending the meeting of the UMW's 250,000-man policy committee here March 11, when the union's wage demands will be formulated.

Some officials are fearful that Lewis may go beyond the mere seeking of pay increases for the miners (Continued on Page Two)

Four Seeking Coaching Job

New Castle School Board Expected To Select Basketball Coach Tonight

Sometime this evening it is probable a new coach for the Senior High school basketball team will be selected when the New Castle School board meets in special session. Only the question of Senior High school athletics will be considered.

Sometime ago the board decided to divide the coaching responsibilities in the Senior High school. Head Coach Phil Bridenbaugh agreed that it would be better to have a coach for basketball alone and the board has been considering candidates since that time.

There are four possibilities from which to select, all of them men of proven ability. The four are L. Butler Henson, of Wampum, Duquesne; Moore, of Sharon, Tudor Lewis, of Farrell, and Pete Colliodi, of Sharon.

NEW BUILDING TO BE ERECTED ON MERCER ST.

Structure Once Used As Post Office On South Mercer Street Being Razed

Recently purchased by Guy Angelucci, owner of the Roma restaurant of this city the three story brick building on the corner of S. Mercer and South streets is in the process of being razed and a new two-story structure will be built on the site.

Built many years ago, and location of the city post office some fifty years past, the building was somewhat gutted by the fire which leveled the adjacent A. & P. store recently, and will be completely torn down.

Mr. Angelucci plans to move his restaurant into the new structure and lease the second floor as office rooms. The property extends back to the A. & P. depot on South street and it is planned to build one of the most modern restaurant establishments in the city.

The ground floor of the building is at present occupied by the J. R. Phipps garage for automobile storage. The second and third stories of the building have been vacant for some time.

New Cardinals Are Assigned To Titular Churches

By MICHAEL CHINIGO
U. S. Staff Correspondent

VATICAN CITY, Feb. 22.—Pope Pius XII conferred the apostolic rites of office upon 28 newly created cardinals today and assigned to them their titular churches amid the magnificent pageantry of the traditional consecration of their creation as princes of the church.

In a ceremony unusually warm and intimate despite its archaic splendor, the pontiff concluded the rites which brought a total of 32 new cardinals into the sacred college and expanded the universality of the Catholic church to include all races and peoples.

Last Consistory

The last consistory opened at 9:30 a. m. in the purple-draped consistory hall. The ceiling of the hall gleamed with a gilding of U. S. gold newly applied for the occasion. His Holiness speedily presented the new cardinals with their rings and launched upon the formal ceremony of the opening and closing of the mouths.

He pronounced the ancient formula: "We close the mouth of your cardinals so that neither during consistories nor congregations and other cardinals' functions may you pronounce your opinion."

Then, with the cardinals symbolically dumb, he assigned them to their titular churches.

The pontiff gave the four American cardinals specific permission to be absent from their titular seats because of your important duties in your own diocese.

Released From Silence

Then the pope released the cardinals from their silence with the formula: "We open your mouths." The ceremony of opening and closing the mouths amounts to a compulsory acceptance by the cardinals of the titular churches selected for them by the pope, in keeping with the secular discipline of the church.

This secret consistory ended at 10:14 a. m. to be followed immediately by a semi-public meeting and (Continued on Page Two)

Report Douglas Prefers To Stay In Present Job

Washington Hears Supreme Court Justice Not Desiring Cabinet Post

OTHERS MENTIONED TO SUCCEED IKES

WASHINGTON, Feb. 22.—(INS)—Supreme Court Justice William O. Douglas was reported today to have told President Truman he prefers the bench to moving into the cabinet as interior secretary succeeding Harold L. Ickes.

This was the latest development in the political madcap revolving about the nomination of Edwin W. Pauley to be undersecretary of the Navy. It was Pauley's nomination which touched off charges by Ickes which touched off the Truman-Ickes break, which finally touched off today's hunt for cabinet talent.

While Capitol Hill honored George Washington and sought a solution of its own modern veracity dilemma, Justice Douglas reported stand-busted chances of two others for the interior post. They were Sen. Joseph O'Mahoney (D) Wyo., and Rep. Frank W. Boykin (D) Ala.

Mr. Truman told reporters he had discussed the job with Douglas but had not yet reached a decision. The President at the same time (Continued on Page Two)

Paper Collection Here, April 13

It's true the war is over so far as the shooting is concerned, but the need for waste paper still exists. Urgent requests have come into the Paper Salvage committee here for more waste paper and today Joseph A. Hartman, chairman of the Paper Salvage committee announced a paper collection for Saturday, April 13.

This collection will be handled in the same fashion the other collections were. The Boy Scouts will provide the collectors for the trucks. The Underprivileged Children's committee of the Kiwanis club will furnish the adult help and the Lawrence county chapter, Pennsylvania Motor Truck association will provide the trucks with the assistance of merchants.

Mark April 13 on your kitchen calendar. Save your paper. Waste paper is still critically short.

Thirty Killed; 500 Injured In Bombay Riots

Rioting Mobs Burn Shops, Military Vehicles, Attack Foreign Banks

STRIKING INDIAN SEAMEN YIELD (BULLETIN)

BOMBAY, Feb. 22.—(INS)—Thirty persons were reported killed today and some 500 injured when British troops and police fired into rioting mobs which had burned postoffices, shops and military vehicles and attacked U. S. and other foreign banks.

Of the injured, at least 350 suffered bullet wounds.

Meanwhile, it was learned that at least two British regiments of several thousand troops were assisting in the restoration of order in Bombay.

Dispatches from Karachi, 500 miles northwest of Bombay, said four striking Indian Royal Navy sailors aboard the sloop HMS Hindustan were killed and 25 injured before surrendering to British forces which opened fire from shore positions.

The seamen, striking in sympathy with Indian sailors, attached to shore installations, fled after British paratroopers smashed the vessel's gun emplacement with artillery fire.

Tension mounted in Bombay as burnt-out hulks of military vehicles, smashed doors and broken glass littered the streets. Rioters smashed the windows of the Bombay branch of the National Bank of New York.

Heavy artillery and other British reinforcements were moved into the city to cope with thousands of civilian strikers who streamed from railway shops and factories in a new wave of violence threatening to engulf the entire city.

Planners Meeting In Butler Today

Road Programs For District Will Probably Be Revealed By Shroyer

Lawrence county will be represented today in Butler at a meeting of the Western Pennsylvania Eastern Ohio Planning commission, which will be held in the Nixon hotel. State Highway Secretary John U. Schrover will be present and address the group on the proposed highway plans for this end of the state.

Representatives of the Greater New Castle Association, the Lawrence County Chapter, Pennsylvania Motor Truck Association and the New Castle Motor club will attend as will representatives from many western Pennsylvania counties and counties in eastern Ohio.

The question of toll roads will probably arise and the Youngstown delegation is said to favor an extension of the turnpike with toll charges. Locally the representatives are against toll roads and believe a system of feeder roads for the turnpike would be the answer.

If Washington were back today, I wonder what he'd have to say at what he'd hear and what he'd see right here at home or cross the sea. Above his head he'd see a plane, nearby a streamlined railroad train, a radio and motor car, and distances he thought were far are just a hop an hour or two. I wonder just what George would do? He'd like the modern things, I guess, but when he saw the world-wide mess he'd probably say not for me. The weather, ah yes, forty-three.

Zoning Board Makes Decisions

City Board of Zoning appeals met Thursday afternoon in City Hall and acted upon three applications for a change in zoning.

Unless Paul Miller, the petitioner, can procure sufficient signers, an application to build a structure in Addison street near Huron avenue, in which liquor could be sold, the zone will not be changed, the board decided.

Request of J. C. Gillilan that the zoning law be changed to permit him to construct a repair shop in North Jefferson street between Park and Boyles avenues was granted with the stipulation that he submit plans of the building prior to construction.

Injured Man Is Taken From Train

R. passenger train, at Wampum, suffering from apparently self-inflicted wounds on his neck and head. He was conveyed in an ambulance to the New Castle hospital where he is in a serious condition.

According to reports Mr. Brewer was en route to Washington. State police reportedly were told by the man's wife, to whom they telephoned the news, that he recently had a nervous breakdown.

The wounded man was discovered bleeding in a toilet room by Kermit Henry, porter, after the train left New Castle Junction, police learned.

CANADA PREPARES TO MAKE EARLY ANSWER TO CHARGE OF RUSSIA

(Continued from Page One)

Friday revealing the existence of an espionage ring which was cooperating with a then unnamed foreign power was actually a move in which the United States and Britain were equally anxious to warn the Soviet to cease espionage activities.

These reports, which are greeted by Canadian officials with "I can't discuss that," state that the espionage ring exists in the United States far more than in Canada. However, if the White House protested to Moscow a serious situation might result since the United States and Russia are the two major powers of the world. Canada could protest with less danger of a serious international incident developing.

But Russia did not react precisely as expected. She has not taken the bait herself and is using the Canadian charge as the basis for a counter-charge that a hostile attitude is being shown toward the Soviet. This also helps undo the damage done Russia at the UNO meeting when she was accused of endangering world peace by her propaganda.

stood four-square behind Pauley, California oil man and former Democratic national treasurer, even though his closest advisers in Congress said the course was hopeless.

From the White House on down the nomination fight shaped up like this:

Pauley Situation
President Truman said he did not expect Pauley to withdraw his name because of Ickes' charge that Pauley once said he could raise \$300,000 for the Democrats if Ickes would drop the Tidelands oil suit. Pauley, who has indignantly denied the Ickes charge, was described by administration sources as still convinced he will be confirmed by the Senate.

Robert E. Hannegan, postmaster-general and Democratic national chairman, was equally certain Pauley would have the votes.

Senate sources usually in the best position to count votes in advance wondered how Pauley or Hannegan could reach that conclusion. Enough votes for confirmation, they insisted, do not exist.

THIRTY KILLED; 500 INJURED IN BOMBAY RIOTS

(Continued from Page One)

Mobs began as representatives of Indian sailors striking against "unfounded hardships and outrageous discrimination" opened negotiations with British authorities.

Hope For Settlement
(The London Evening Standard quoted British authorities in New Delhi as declaring there was "good hope for a reasonable settlement today" of demands of striking seamen estimated to number "rather fewer than 12,000.")

Meanwhile, a 15-hour curfew was clamped on a strife-torn Bombay as rioters battled armed police in the streets, stoned hospitals and assaulted shop-keepers. Five hundred Indian air transport company mechanics joined the general strike. The London Evening Standard, quoting Indian leaders as saying the situation was "serious beyond words," said mobs swirling through Bombay burned down two branches of the Imperial Bank of India.

London, Feb. 22.—A Reuter dispatch from Bombay said today that rebellious Indian sailors are ready to abide by the advice of the All-India Nationalist Congress party to lay down their arms and go through the formality of surrender.

and attempt to smash the government's new wage-price program. Both the UMW and the AFL, with which the miners are now affiliated, have denounced the policy.

On Other Strike Fronts

On other strike fronts, the situation remained practically unchanged. In Detroit, negotiations continued between General Motors and the CIO United Automobile Workers union with the parties reportedly concentrating on the basic issue of a wage increase. Other contract problems, including maintenance of union membership, are understood to have been settled. On the wage point, GM has offered 18 1/2 cents an hour while the union demands 19 1/2 as recommended by the President's fact-finding board.

Mediators Active

Federal mediators Arthur Meyer and William H. Davis pressed their efforts in New York to bring about settlement of the strike of 175,000 CIO Electrical union members against General Electric and Westinghouse. The outcome hinged on price increases to be granted the companies under the new wage-price program designed to compensate industry for reconversion wage boosts.

The heads of two railroad brotherhoods—the trainmen and the engineers—inform President Truman that 99 per cent of their 300,000 members favor a strike, but it appeared probably that machinery of the railway labor act will be invoked to postpone such a walkout. Labor department officials kept a close watch on the threatened resumption next Tuesday of a strike by Duquesne Light Co. employees in the Pittsburgh area. However, no federal intervention has yet been indicated although Pittsburgh officials reportedly are asking for government seizure of the utility to prevent a recurrence of last week's paralyzing one-day electric power shutdown.

peal to take action in the tie-up. Meantime the mayor, who heads the three man impartial mediation board, held conference with local CIO-AFL leaders in an effort to find some solution to the problem. The new strike ultimatum was issued by George L. Mueller, president of the union, after he accused the company of refusing to raise its proposed 7 1/2 per cent wage boost.

PITTSBURGH, Feb. 22.—(INS)—President H. McConne of the Duquesne Light company today said he might enter into the wage dispute negotiations between his company and its independent union in an effort to avert a renewed power strike in Pittsburgh scheduled for 12:01 a. m. Tuesday.

McConne's decision came after union President George L. Mueller declared "We are not dealing with the right people" and termed the company representatives as "Glorified office boys who have no authority to make a policy decision."

to make the higher priced items to keep their help busy. But Bowles forbade them to send these products to the retailers and they were kept in the warehouses.

As an example, a manufacturer in the prewar days was accustomed to making suits at prices ranging from \$39 to \$65. During the war he was told to produce suits selling at about an average of \$45. He could not get material for anything other than \$50 to \$65 suits but he was not allowed to sell them.

President Truman, in addition to giving Porter authority to raise price ceilings in hardship cases as a consequence of wage increases approved by the wage stabilization board, also granted him permission to make special adjustments for industries operating at the low volume level.

Porter plans to exercise his authority fully and now intends to put the withheld products on the market at the earliest possible moment.

Shenango Hi-Y Names Leader

At a meeting of the Shenango street Hi-Y group last night Earl Webber was elected as the head of the organization. Some twenty-two members were present at the meeting.

The group plans to meet every Wednesday and at the next meeting an election of officers will be held.

Boy Scout Troop No. 7 also met in the club rooms of the branch last night and Tom Fehl was again named to head the troop as scoutmaster.

SOVIET-CANADIAN DISPUTE THREAT TO WORLD PEACE

(Continued from Page One)

Canadian Prime Minister W. L. Mackenzie King revealed that several Canadians had been detained on charges of supplying vital information to the Russians.

Secrets Gained

Included in the information gained, it was said, were important secrets involving atomic energy. Moscow admitted information had been supplied by its military attaché by well meaning Canadian acquaintances. Moscow asserted that the information was valuable but that the attaché had been recalled.

Reports from Ottawa indicated that the Canadian government took a serious view of the Moscow statement, particularly of the Soviet complaint that the Canadian charges were made public before they were submitted to the Soviet embassy. Other reports rumored a possible break in Canadian-Soviet diplomatic relations because of the impasse.

LARGE LOSS OF LIFE

Report Six More Arrests Are Made In Canada Expose

OTTAWA, Feb. 22.—(INS)—The Canadian government was reported today to have arrested an estimated six more persons on charges of disclosing confidential information to a Russian espionage ring.

A high government official said the persons taken into custody today were the first arrested since last Friday when Prime Minister W. L. Mackenzie King first announced the existence of such a ring.

At that time, government sources said that 22 persons, most of them government employees, were being held. Since then, however, other sources have indicated that that figure was too high.

Two of those arrested today were reportedly well-known in Ottawa, leading to the belief that they may have been more than minor employees of the government. Said one official:

"Two are well known, and their arrest quite likely will lead to loud cries from their relatives and friends."

Townships To Get Motor Tax Funds

First Allocations To Lawrence County Townships Made By State

Auditor General G. Harold Wagner has approved payments totaling \$907,974.39 to 1254 second class townships in the Commonwealth. The payments are the first to be made from an appropriation of \$8,500,000 out of the Motor License Fund to the State Department of Highways for the 1946-47 biennium. The money is for the maintenance, construction and reconstruction of township roads and bridges.

The funds are allocated on the basis of the ratio which the mileage of township roads in each township bears to the total mileage of township roads in all of the townships of the second class in the Commonwealth as of January 1, 1946.

Second class townships in Lawrence county will receive \$10,005.61. The townships, and the amount each will receive, are:

Big Beaver, \$472.39; Hickory, \$533.90; Little Beaver, \$671.17; Mahoning, \$881.64; Neshamock, \$633.76; North Beaver, \$1,400.81; Perry, \$584.65; Plaingrove, \$568.28; Pulaske, \$750.68; Scott, \$519.16; Slippery Rock, \$1,052.36; Taylor, \$255.37; Washington, \$477.07; Wayne, \$594; Wilmington, \$610.37.

Some diseases for which streptomycin may prove effective are typhoid, tularemia or rabbit fever, cholera and dysentery.

Doctors Do Good Stitching Job

PITTSBURGH, Feb. 22.—(INS)—It took doctors four hours and 125 stitches today to patch up Leona Taylor, 37, who suffered 30 cuts on her face, neck, body and hands.

Police gave no explanation for the accident but said the Taylor woman recently had them arrest a man who, she claimed, had been annoying her.

About a half-mile down the valley below the house a swinging bridge has been swung over the creek for the convenience of the walkers traversing the right-of-way of a pipe line which crosses the valley at this point. This is perhaps an 80-foot span, consisting of a board catwalk strung on heavy wire cables which are moored to concrete anchors set well back from the banks. A pair of cable rails have also been passed across the stream and are tied in with the catwalk at ten-foot intervals.

The whole contraption is a very intriguing affair, probably quite safe but always good for a thrill or two in the crossing. The creek makes a wide, lazy curve at this point, and appears quite deep. Several of the boards are gone from one end of the bridge, making it necessary to inch along the cables in a sort of spread-eagle fashion, at the same time maintaining a vice-like grip on the hand rails.

Has Peculiar Fascination
This bridge holds a peculiar fascination for me. When my rambles take me down through the valley I always seem to find some excuse for bouncing across high above the water. Each step forward brings a sort of leaping response from the whole span, so that by the time the traveler arrives at midpoint he feels like a second cousin to the man on the flying trapeze. Long after the warfarer has made his crossing and disappeared, the bridge keeps on swaying, as though keeping in training to take the next pedestrian over the jumps.

The past week has brought some magnificent February weather, particularly magnificent to the outdoorsman who loves the wind-music in the trees. The far creek bank, directly across the valley from our house, rises rather abruptly a few hundred feet and then breaks off in a sort of upland plateau. The stream makes a long bend here and as a result we are in the center of a vast half-amphitheatre, heavily wooded on the banks and clear around the top edge.

One night recently February blew up a gale along towards midnight. During the small hours of the next morning the storm reached its height and the sound and fury outside brought me full awake. The gale came unchecked across the open upland country and then drummed out great crashing chords as it smashed through the timber edging the far hillsides. For a few moments I lay there lost in admiration of the show. Then a discordant note indicated that our trash can had taken off for parts known.

The next day I found it 200 yards away, lodged against the fence, its contents scattered over the lawn. I note that our sable friends, the crows, are becoming aware of the changing season. These clever birds are among the first to nest hereabouts, following close on the heels of the owls, which are even now house hunting in the woodlands. The crows seem to have paired off and each pair will select the site for their nest with utmost secrecy. One pair has apparently chosen our valley for this year's housing project, but where they plan to build is still a very confidential matter.

Buds Seem Swollen
Recent days of unseasonable warmth have apparently affected the Carolina poplars at the top of our yard. It may be my imagination, but the buds seem swollen on the trees. The thickets show a good crop of fat buds on nearly all the woodland shrubs. Dogwood and spicebush are especially healthy looking, as are the young beech shoots.

We took a short hike through the thickets below the house, in the hope of meeting up with a new bird or two. The temperature and the sun were right, but the birds did not cooperate. Soon we found ourselves crossing a hillside picket line of fox hunters. This proved to be a bloodthirsty crew, each armed with a shotgun. These nimrods drove across the countryside in a thin line, routing out every warm blooded creature not under the ground. The fox is quite able to cope with one or two hunters and their dogs, but these tactics are too much for him. He either has to come out and get shot, or sit tight and get trampled to death.

Frost In Ground
There is still a thick belt of frost in the ground. As I went to dig out a few parsnips from the upper garden I was surprised to encounter this condition, since the surface had thawed to a muddy mess. I could get nowhere with the spade and had to resort to the pick to dig out a dozen or so of the crisp, tasty roots. In a day or two there will be a few loads of barnyard refuse spread about on the garden plots. This is a job I like, for it seems to bring nearer those still-distant days of plowing and harrowing and sowing seeds in the good earth.

SASSY FRASS

The Book of Revelation in the Bible is called the Apocalypse, from the fact that the word revelation is derived from *apokalypsis*, the Latin equivalent for apocalypse, both words meaning uncovering or unveiling.

Mt. Athos, on the Macedonian coast of the Aegean sea, is known as the Land Without Women. Since the early days of Christianity this holy mountain has been the retreat of monks, and no women have lived there.

Union High Seniors Entertain Juniors At Dance Thursday

Lorene Brown And Richard Wallace
Chosen Seniors Most Likely
To Succeed In Life

Union High School's spring social season was opened Thursday evening by a dinner-dance given by the senior class, with the juniors and faculty as guests.

Dinner was served by the Union Township P. T. A. in the high school. Tables were decorated with red and white candles and flowers for the occasion.

Included in the musical program which followed the dinner were: a vocal duet by Gladys Grizzle and Leona Heckart, and several ensemble numbers by Ray Langford, Percy Mauney, Edward and Joe Sniezek, accompanied by Elizabeth Cooper. The music committee consisted of Percy Mauney, Lorene Brown, and Audrey Hammers.

Two short movies, shown by Richard Buchanan, concluded the program, and the remainder of the evening was spent in dancing. High point of the party was the announcement of Richard Wallace and Lorene Brown as the senior boy and girl most likely to succeed in life, according to the results of a vote taken during the dinner. Both winners were honored with gifts.

Other committees which helped to make the evening a success were: table committee, James Romco, Mary Alice Boyd, Mary Lou Letzka, Dolores Hartzell, and Tom Pagley; ticket committee, Margery Rohrer, Donna Bartlett, Nancy Spelleck, and Frank Kuhn; dance committee, Charles Cook, Maxine Hallerman, and Robert Jackson. All these committees were aided by the senior advisers, Elma Robinson and Erma Padon, and by Betty Robinson who led the group singing.

Rev. Burris Will Illustrate Sermon

'America At The Crossroads' Subject Of Illustrated Message
Tonight At Cathedral

With his entire party participating, assisted by various laymen of the city, Rev. Jackie Burris, evangelist, will present a dramatized version of his message, "America at the Crossroads," in the Cathedral auditorium tonight at 7:30 o'clock.

The evangelist plans to portray to his audience the sleepy condition of the country today in regard to spiritual matters with Neil Macaulay, member of the party, portraying the part of Uncle Sam, dressed in the traditional garb of the tall gentlemen with his stove pipe hat.

Prior to the illustrated sermon, the musical messengers will present another sacred concert.

Thursday evening another large audience, overflowing into the second balcony of the Cathedral, witnessed motion pictures taken personally by Rev. Burris during his visit to Palestine. The pictures were followed by a message entitled, "Palestine and the Jews in the Light of Bible Prophecy" with the evangelist bringing out the part the present-day Jew is playing in the fulfillment of Biblical prophecy.

In lieu of a Cathedral service Saturday evening, the party moves to the First Methodist church, where they will assist in the Youth for Christ Rally, conducted there at 8 o'clock. The group will move back into the Cathedral for two Sunday services, 2:30 and 7:30 p. m. P. to church.

STUDENTS ENACT WASHINGTON PLAY
Honoring the birthday of the president for whom the school was named, Washington Junior High School students enacted scenes from "Washington at Valley Forge" during the Thursday afternoon assembly period.

An additional feature, adding to the eighteenth century atmosphere, was a minuet performed by ninth grade girls trained by Miss Betty Bridenbaugh. The play was under the direction of Mrs. Geneva Kramer.

Bus Driver Saves Lives Of Thirty By Quick Thinking

HARRISBURG, Feb. 22.—(INS)—The quick thinking of Charles Potanic, Pittsburgh bus driver, was credited today with saving the lives of 30 passengers of his bus when it caught fire at Harrisburg.

Potanic, who had discovered that battery cables were afire beneath the vehicle, drove the bus up to the toll house of a Harrisburg bridge and casually told passengers: "Everyone must get off."

Puzzled but obedient, the passengers filed out. Harrisburg firemen quickly extinguished the blaze.

Franklin Hobbyists Are Given Awards

Awards for the hobby show held at Franklin Junior high school last fall were presented during an assembly program by Mrs. Carrie Jeffrey Roberts, speaker for the program.

Twenty-five or thirty students were on the stage to receive recognition, and approximately a dozen had with them parts of their hobby collections or work. Mrs. Roberts, who herself has an unusual collection of dolls from all over the world, quizzed the youngsters on their hobbies.

There are no two snowflakes alike. They may assume any one of a number of possible forms running into billions and billions.

ATOMIC BOMB MOST TERRIBLE WEAPON AS YET

PHILADELPHIA, Feb. 22.—(INS)—The atomic bomb was pictured by Vice Adm. William H. P. Blandy today as the "only terrible weapon which modern science has produced" capable of such "potential destruction in a small package."

Because of its small size, he asserted, the atomic bomb is "well adapted to surprise attack."

In a preview of the atomic bomb tests in the Pacific this spring, which as joint task force commander he will supervise, Admiral Blandy declared:

"It is the army's and the navy's business to learn more about the destructive power of this new weapon, both in order to be ready to use it, and to defend against it, in case we should be forced to do either."

The tests scheduled to begin May 15 in Bikini atoll in the Marshalls, some 2000 miles southwest of Hawaii, are necessary, Admiral Blandy contended, for the good of "the men of the next generation."

Yankee Dollar Now Just Part Of Madame's Private Property

By VICOMTESSE JACQUELINE
DE MAUDUIT
(U. S. Staff Correspondent)

PARIS, Feb. 22.—Chic French women now can have American dollars on their backs if they can't collect them in their pocketbooks.

The American dollar made a strange debut today on the gowns worn by smart French Mannequins displaying the new Paris spring styles.

Capt. Edward Molyneux, the designer, featured fantastic prints, including United States currency reproduced in black against a pink background with the inscription: "Dollars Americans."

Molyneux, who recently got out of his RAF uniform, presented another creation termed "Atomic Bomb."

It was done against a white background with inscriptions printed in red, green and black such as "Whiskey," "Vodka" and "Bomb." These were linked with drawings showing chemistry vials and retorts. These prints vied with evening gowns for the blue ribbon. The gowns are so narrow and so tight that they're split to permit walking and allow a generous leg display.

reminiscent of the last war. Lace and flowers are used abundantly. All the creations, made of high quality material, showed plainly that ersatz is out.

Sgt. Louis Gentile Returns To Civvies

One by one, boys of the Croton district are returning, to refill their place that was left vacant when duty called them to the service of their country.

The latest Croton man to return to civilian life is Sgt. Louis Gentile, who has just received his discharge for the army at Camp Atterbury, Ind., thus completing three and a half years in the armed forces.

Beginning his basic training at Daniel Field, Ga., Louis took other training at Miami Beach, Fla., as well as other camps in this country before embarking for one year's overseas duty.

Sgt. Gentile's overseas service with the 20th Air Force took him to Guam and other Pacific Islands which earned him the right to wear the Good Conduct medal, Asiatic-Pacific Liberation ribbon, Victory medal and the American Defense medal.

The discharged veteran is the son of Mr. and Mrs. Jerome Gentile, of 1101 North Croton avenue, and he plans to resume his work with Carnegie-Illinois Steel corporation in Farrell.

The Army Dental Corps has made 71,500,000 fillings, 16,500,000 extractions and 2,600,000 dentures for army personnel since Pearl Harbor.

PLEA POSSIBLE

While there has been no statement made to that effect, there is a possibility that Irvin Herpe, charged with the murder of Jean Fatur, on October 17, 1945, may enter a plea of guilty to the offense.

This would eliminate a jury trial but would not eliminate the taking of testimony. If a plea were entered, testimony would then have to be heard by the court for the purpose of fixing the degree of guilt.

A plea does not affect the finding of the court. In such a case the extreme penalty could be inflicted or the degree put anywhere from manslaughter to first degree murder.

Council for Herpe have been working on the case and District Attorney Leroy K. Donaldson has been preparing the Commonwealth's case. The tentative date for the trial has been set for March 11, this of course depending upon the grand jury finding a true bill.

If the case goes to trial there will be a lot of witnesses to bring from Ohio, and the expense to the county would run into thousands.

THE PARENT PROBLEM

(Continued From Page Four)

We need also to discipline ourselves not to go around mad at ourselves and the child and everybody else for hours and days. Yes, we need not only to hold our tongue, but also our inside. We need to feel no anger over what we know we can do nothing about.

If, like a little child who says, "I am mad at you and won't play with you," we let ourselves reveal continuous anger over such matters for protracted periods of time, we have only piled up more trouble for ourselves and rendered ourselves helpless in many other situations in which we otherwise might have had persuasion and control with the child. In other words, every time we parents lose control of reason and our emotions over the adolescent child, we weaken our ability to deal effectively with him, thereafter.

If, in spite of the few of many situations in which we sense an utter loss in control of this youth, we are able to see his many good traits, and can have enjoyable companionship with him at many other times, the possibilities still ahead. We parents need to pray for wisdom and self-control. I have written a prayer for us parents, to be had in a stamped envelope by enclosing a self-addressed stamped envelope and mailed to me at 235 East 45th street, New York City.

BILL TO CURB PETRILLO PASSES HOUSE BY 222-43

Measure Is Sent To House-Senate Conference Committee For Final Revamping

WASHINGTON, Feb. 22.—(INS)—Legislation aimed at James C. Petrillo, president of the American Federation of Musicians, and designed to curb alleged "coercive activities" against the broadcasting industry was headed today for a house-senate conference committee.

The conferees will attempt to iron out differences in the stringent measure approved Thursday night by the house by a vote of 222 to 43 and the much milder legislation passed by the senate Feb. 1, 1945.

The house bill, sponsored by Rep. Lea (D-Calif.), outlaws certain types of strikes and boycotts in the broadcasting industry. Violations would be considered misdemeanors, punishable by one year's imprisonment and \$1,000 fine.

Makes Practices Illegal
The Lea measure makes unlawful strikes or boycotts in support of various musicians' union practices, such as requiring radio stations to hire standby orchestras, compelling record manufacturers to pay royalties on their recordings and placing restrictions on the rebroadcast of foreign music.

In all, some eight practices are made illegal.
The senate bill was sponsored by Sen. Vandenberg (R-Mich.) and banned interference with the broadcasting of non-commercial, cultural or educational programs, an outgrowth of the union's controversy with the national music camp, at Interlochen, Mich. The house interstate and foreign commerce committee, of which Lea is chairman, felt that the Vandenberg bill was "too narrow in its scope."

The conferees were expected to tone down the house bill, but report out stronger measure than that which passed the senate.

STORK STOPS TRAIN
WESTFIELD, N. Y.—(INS)—The New York Central Railroad's Commodore Vanderbilt express might be speedy but it lost a race to a bird. The train was halted to permit the removal of Mrs. Sarah Barlow, of Rockford, Ill., who had a date with the stork.

Commander Of Indiantown Gap Gets New Position

INDIANTOWN Gap, Feb. 22.—Col. Malcolm F. Lindsey, who commanded Indiantown Gap military reservation through its transition from an ASP training center and replacement depot to one of the nation's busiest separation centers, has received orders transferring him to Ft. Meade, Md.

Col. Lindsey will retain his command here until the flow of separations to Indiantown ceases March 1.

The name of Col. Lindsey's successor as post commander here has not yet been disclosed by third service command headquarters in Baltimore.

A trim military figure with iron-gray hair and weather-lined face, Col. Lindsey (then a brigadier general) assumed command of Indiantown Gap barely more than a year ago, succeeding Brig. Gen. Jesse A. Ladd on Feb. 20, 1945.

Steps Taken To Organize Legion Post For Women

Number Of Service Women Attend Initial Meeting In Legion Home Thursday Eve

With a fairly good representation of service women present, initial steps were taken to form an all-woman's post of the American Legion, at a meeting held in the Legion Home here Thursday evening.

This post will take in service women from all of Lawrence county, and application for a charter will be made as soon as the required number have signed. District Commander A. Lewis Conn, who presided at last night's meeting, states. Similar posts have been formed in Beaver and Butler counties.

There was a large group of interested women from Ellwood City in attendance at last night's meet-

ing, who were accompanied by Deputy District Commander R. Wayne Baird, Commander Lou Edelman and Past Commander Walter P. Simpson.

Commander Leon A. Drumm and other officers of the local post were also present, and spoke on the principles of the American Legion.

A second meeting, when application for a charter will likely be made, will take place in the rooms of the Ellwood City Post on Friday evening, March 22.

Only One Way To Send Mail Through To German People

Concerned about the plight of a local G.I. who became engaged to a German fraulein and is now unable to correspond with her, the Lawrence county Red Cross chapter has found out that those who have relatives, friends or a fiancée in Germany, as German citizens or refugees from other countries, may

write to those people through the American Jewish Joint Distribution committee in Paris.

This agency is the only means of contact between people outside of Germany and those inside, except for American occupation troops who receive regular mails from home. No other mail goes through to the German civilians.

Letters for Germany may be placed in an envelope inside a larger envelope which should be addressed to The American Jewish Joint Distribution committee, 19 Rue de Teheran, Paris, 8. France. This group was organized to locate the friends and relatives, not only of Jewish peoples, but of persons of any nationality group which its services can reach.

Five Buildings In Beaver Falls Guttled By Blaze

BEAVER FALLS, Feb. 22.—Fire swept through five buildings here Thursday, destroying or damaging all the structures and making homeless three families in a \$50,000 blaze. The flames cut off telephone service to 1500 homes and business establishments.

The fire, which inflicted minor injuries to five persons, four of them firemen, started from a coal heating stove in the repair shop of Earl Kaecher at 2410 Eighth avenue.

To the north the flames consumed a two-story frame store-room and apartment. To the south the Kaecher bicycle shop, a second floor apartment and a rear storage structure were gutted.

A three-story brick building at 2404 Eighth avenue was also damaged by the blaze. Two trunk telephone lines were also cut by the heat.

Cpl. Jack Treser Granted Discharge

After 20 months overseas duty with the army air forces, Cpl. Jack Treser, son of Stanley Treser, 223 Laurel boulevard, has arrived home. He received his discharge at Camp Atterbury, Ind.

Cpl. Treser served as a radio operator with the 328th Fighter Con-

trol squadron of the 64th Fighter wing in France, Luxembourg and Germany. Previous to his enlistment in the service in 1943, he made his home in Detroit, Mich.

STOCKPILE SHORT
AKRON, O.—(INS)—The U. S. rubber stockpile at the close of 1945 was 125,000 tons—only about 35,000 tons more than at the end of 1944. This means that car owners may not be able to buy the exact size and brand of tire wanted before the end of this year.

Babson Discusses Labor And Strike Situations

By ROGER W. BABSON
(Copyright, 1946, Publishers Financial Bureau, Inc.)

BABSON PARK, Pa., Feb. 22.—Having served in Washington as assistant secretary of labor during World War I and later as director

general of information and education, many letters are coming to me asking as to what can be done to prevent strikes. I am replying "Nothing can prevent strikes, but Congress can do something to make them less serious." Upon referring to certain notes which I made at the close of World War I

another and to the public. Both the unions and companies should gradually consolidate their operations so that the industry as a whole will be negotiating rather than independent companies. This is the English custom and should be adopted in the United States.

It is a mistake for President Truman to get mixed up either with wages or prices of goods. As to inflation—following World War I, we suffered from inflation but very little was done to prevent it. We have taken a great step forward in these past 20 years in recognizing both the advantages and dangers of inflation. Too much inflation should be fought like a prairie fire; but some inflation now must be necessary in view of our tremendous war debt. Certainly, wages and prices should be considered by the same mediation boards if prices are to be fixed for more than a short, temporary period.

Corporation Officials Vs Labor Leaders

Letters are coming to me asking if the corporations have as good leadership as the big unions? Many investors feel that too many corporation officials have inherited their jobs, while most union leaders have fought their way to the top through sheer ability. These investors would not object to paying large salaries to the heads of their companies provided they have the needed ability. Too many stockholders now seem to be losing faith

in the ability of these company officials whom they mechanically reelect every year by blindly signing absentee proxies.

Voluntary mediation boards should materially be strengthened and their use encouraged. These boards should consist of three prominent men all of whom have the public's respect—one selected by the unions, one by the companies and one by them jointly. These men should be given funds to secure all necessary information within a reasonable time and both sides should agree in advance to accept their decisions as final. It may be possible to have union-company agreements for "cooling off" periods during the limited time that these mediation boards are reaching a decision.

Some Rules Should Apply To All

Both corporations and unions should equally be subject to the same anti-trust laws and the same corporation laws which have to be recognized as standard practices. In this connection, both labor and management should have an equal right to press their views to one

in the ability of these company officials whom they mechanically reelect every year by blindly signing absentee proxies.

It is surely up to the stockholders of corporations to get as loyal and able leaders as the union membership gets. Moreover, stockholders must some day insist that their directors and officials get results for them in the form of larger dividends when, as and if the labor leaders get more for their union membership. Stockholders will some day insist upon annual physical examinations and audits concerning the health of company directors and officials the same as they now have annual financial audits.

Foresees Raiding Of CIO Unions Now

Former W.L.B. Head Says That Will Be Result Of Lewis' Re-entry Into A. F. Of L.

PHILADELPHIA, Feb. 22.—(INS)—Dr. George W. Taylor, University of Pennsylvania professor and former chairman of the war labor board, warned today that John L. Lewis' re-entry in the AFL fore-shadowed "raiding" of CIO unions by the older organization.

He declared that the "dollars and cents significance of the split in the labor movement" is one of four lessons that can be drawn from the present labor situation.

The others, he said, are: There is still no free collective bargaining—the government is still playing a dominant role in labor relations.

The country must think "hard and fast" about the role of government in labor relations—stress must be laid on mediation.

The nation has no wage policy—

labor and management "must talk and think hard about a wage policy and especially the 'fair wage concept,' as contrasted to the 'ability to pay concept.'"

"It is time to impress on industry and labor their responsibilities," he declared. "It's time they did something about them instead of talking about their rights so much."

Lexington, Ky., in the heart of the Bluegrass state, was named in honor of those who died in the opening battle of the Revolutionary War.

HAS REUNION

VANCOUVER, Wash.—(INS)—A small brown and white spitz dog has spent most of his 17 years in one family. Then he was suddenly "orphaned" by having his five masters and mistresses severely injured in an automobile collision. Police officers finally succeeded in making friends with the waif and enticed him into a patrol car. He was soon joyfully reunited with his family at the hospital.

Coed Widow Gets Posthumous Medal Given To Husband

NEW WILMINGTON, Feb. 22.—Posthumous awards of the Silver Star medal and Purple Heart to Lt. Kenneth R. Poulton have been received by his widow, Mrs. Betty Poulton of High street, New Wilmington.

Lt. Poulton, a graduate of Westminster college, was killed on Luzon in May, 1945, by enemy fire. Mrs. Poulton is dividing her time between attending classes at Westminster and taking care of her 20-month-old son, Robert.

Lt. Poulton received the Silver Star for "gallantry in action against the Japanese forces January 23, 1945. He exposed himself to heavy enemy tank and automatic weapon fire while directing his M17 self-propelled 105 mm. howitzer mount on a reconnaissance of enemy positions.

"He directed his mount forward of the infantry lines and from distances of only 40 yards of his target directed fire on hidden enemy tanks. Lt. Poulton's courageous actions were a source of inspiration to all who witnessed the encounter."

Social Night At 'Y' Success

Some 20 members of the Y. M. C. A. senior enrollment enjoyed a social night at the association building last night, with a talk on baseball by Frank L. Coen the highlight of the evening.

Mr. Coen recounted many interesting tales concerning the diamond sport and gave some interesting pointers to the boys assembled, stressing conditioning and practice as basic requisites for aspirants to the sports.

The members had a basketball session on the floor and followed this with doughnuts and coffee, after which Mr. Coen spoke to the group.

Tickets Go Fast For YMCA Banquet

There aren't many tickets left for the annual father and sons banquet to be held in the "Y" banquet hall March 1. William Winter said today that Sidney Lockley will deliver the toast to the sons at the dinner, and his son, Sidney, Jr., will retaliate with the toast to the fathers.

Pep singing and other amusements will be features of the night as well as the main address of the evening by Robert Traugh, western district secretary of the "Y."

LOSE UGLY POUNDS FAST WITHOUT HUNGER MISERY!

Why try to regain a trim, youthful figure the hard way—why make yourself miserable trying to starve yourself thinner—torturing yourself with painful and possibly injurious exercises—taking chances on harmful reducing drugs? You'll be amazed at how easy and pleasant it is for most people who are harassed and discouraged with dangerous excess weight to lose as much as three to five pounds a week the modern, harmless Tremett Way.

Tremett Tastes As Good As Malted Milk. Helps Prevent Hunger-Pangs While Reducing!

Most people who determine to take off unsightly pounds—and keep it off—find it next to impossible to resist fattening foods long enough to insure results. But when Tremett, the squeezing food supplement, is taken according to directions, the urge to "cheat" on reducing diets is no longer a temptation. The suffering and misery of reducing is banished! For Tremett helps keep you satisfied and filled—and contains the necessary minerals and vitamins to normally sustain those on restricted diets. And Tremett tastes as good as a soda fountain drink! It's actually delicious!

Results — Or Money Back In Full! Tremett must give you the results you seek—easier, more pleasantly—and within 30 days—or your money will be refunded in full. There is only one genuine Tremett. Accept no "just as good" substitute.

Doctor's Wife Loses Nearly Five Pounds
Being a doctor's wife I could hardly believe Tremett could do all you claim. I tried one bottle and lost nearly five pounds in a week. Mrs. H. L. Florida.

Reduces From size 42 to size 20
Before taking Tremett my niece wore

size 42 dress. Now she wears size 20 and even that is too large. She reduced her waist five or six inches and lost weight. Mrs. O. M. Ohio.

Friends See Results
My friends have seen the results of my taking Tremett. Now they want it, too. I wouldn't be without such a beneficial product. Mrs. R. B. California.

THEY USED TO CALL HER FATTY

The dark-haired twin, Patricia, died apparently from complications which arose from a diabetic ailment. With her fair-haired sister, Aileen, she had been scheduled to appear next month in New York for a radio audition.

Secretary Bevin Says British Not To Battle Soviet

LONDON, Feb. 22.—(INS)—Apprehension over deteriorating Anglo-Russo relations subsided somewhat today following a House of Commons statement by Foreign Secretary Ernest Bevin that "I could not conceive of any circumstance under which Britain and the Soviet Union should go to war."

Referring to unofficial Soviet territorial claims against Turkey, Bevin said:

"It has been said we are drifting into war with Russia. . . . The Soviet Union is one great land power, and I could not see what we should have to fight about."

The British statesman said he hoped for permanent Anglo-Russian friendship.

The early history of watches is uncertain. Small timepieces for carrying in the pocket were not made until after the invention of the mainspring in clocks. It is believed that watches were first made about the beginning of the 16th century. They were made at that time in about the shape of an egg.

Find Russian Army Controls Chinese City

Correspondent Party Dis-
covers Firm Red Army
Clamp On Mukden,
Manchuria

MUKDEN. (Delayed)—(Via Air
Courier to Peking)—Feb. 20.—(INS)
—Accredited news correspondents
traveling in Manchuria promptly
learned today how completely the
Red army controls Mukden.

Within minutes of our arrival here
we found ourselves the center of
the stage of an international by-
play and virtually interned by the
Soviets, although the Chinese did
not object to our visit.

Our party is composed of one
British and eight American corre-
spondents.

A Chinese colonel whisked us away
a minute before the Soviet com-
mander's representative arrived.
Taken to Chinese headquarters
for a "rest", we barely had time to
have a cigarette before the Chinese
colonel announced the Russians were
seeking us. We were rushed in
jeeps to a Chinese hotel.

The Soviet commander's repre-
sentative caught up with us at the
entrance to the Chinese hotel, which
was flanked by four Soviet soldiers
armed with tommy guns and by four
of Chian Kai-Shek's soldiers, simi-
larly armed.

Stay with Russians
The Russian representative told
us:

"By order of the commanding
general you are invited to stay with
us and hotel accommodations are
ready for you."

After a ten-minute conference be-
tween Chinese and Russian repre-

sentatives—carried on in their own
languages—it was apparent we were
to stay with Soviets.

We boarded a truck guarded by an
armed Russian G. I.

As we were being taken to the
best hotel, correspondents learned
one fact about the city on which
centers many conflicting rumors
since the war ended: nobody violated
the curfew. We did not see one
person on the streets although
thousands of coolies are up and
working at 5 a. m. in American
occupied Chinese cities.

The Soviet commanding general
here—Gen. Andrei Kovtoun-Stankov-
itch—when asked when his troops
would leave Mukden, replied:

"When ordered by my superiors.
Presently I have no order."

The Soviet commander, who wore
the American Legion of Honor pre-
sented to him in Czechoslovakia,
asked up:

"When are American troops leav-
ing China?"

World's most curious epitaph was
a collection of recipes. A chief of
the French King, Louis Philippe,
provided recipes, which were affixed
on his tombstone instead of an
epitaph. Placed in a metal frame,
the recipes were changed daily.

Gold Discovery Runs \$1.75 Ton; Prospector Sad

Veteran Prospector Finds Gold While Workers Excavate For Building

HELENA, Mont., (INS)—"Side-walk superintendents" in Helena recently witnessed a gold discovery, but it resulted in none of the bustle which in 1884 brought the sourdoughs to Last Chance Gulch, now the city's main street.

A few bystanders, watching excavation for a building, heard a ruddy-faced old prospector say there was gold in "that there dirt".

The prospector, Henry Kasman—40 years around diggings—proceeded to prove it when the gallery was large enough to suit him.

Mayor John J. Haytin was there, along with some county commissioners, mining men and a representative of the Bureau of Mines. They watched Kasman pan a sample.

Worth \$1.75 a Ton
"By gosh," said the mayor, "it's gold all right."

Then a dredgeowner for Porter Brothers, whose outfit was dredging for gold inside the city limits, estimated Kasman's sample would run \$1.75 per ton.

The mayor and councilman disappeared, and the bystanders dispersed. The contractors poured cement over the ground, and Kasman shouldered his pick and pan.

The prospector was thinking of the good old days, before Helena grew up and was satisfied with just being Montana's capital.

One-Peso Coins

Disappear From Mexican Mart

MEXICO CITY, (INS)—The bright one-peso coins of Mexico have disappeared from circulation as a result of the United States increasing the price of silver.

Under the new rate, the silver peso was estimated to have the value of 133 pesos at the official rate of exchange of 4.85 pesos to the U. S. dollar.

The same thing happened to Mexican silver coin, the "toston", with the value of 50 centavos.

Immediately after the price of silver went up, sidewalk vendors were offering silver pesos at the rate of one peso, 30 centavos (paper and copper) but there were few takers.

Banks immediately suspended payment in silver and a government spokesman, taking cognizance of the new traffic in silver coins, said there was no law to prevent it. Presumably, those in possession of the silver are free to sell it in the market by weight.

He added, however, that any new coinage would have a silver content which would make a bartering in coins as bulk metal "impractical and unprofitable".

Becomes Champion War Bond Seller

Stock 65 Million Fish Last Year

CHICAGO, (INS)—The deaths of her parents and brother in Nazi-occupied Denmark spurred Mrs. Asa Faust into becoming a champion E-bond salesman.

During the Seventh War Loan the middle-aged housewife sold \$300,000 in bonds, and her sales in the Victory Loan drive totaled more than \$150,000.

A native of Denmark, she came to Chicago in 1910. She visited her family in 1920, and after the German occupation heard no more from them until in June, 1941, when a letter told her that her parents were dead and her brother killed. There were no details.

From that time on she and her husband, who operates a men's furnishings store, looked on the bond campaigns as a way to save a few lives by ending the war a little sooner.

At this time of year gum is likely to become stuck on children's wooden clothing. To remove it from brushed wool mittens, for instance, rub the gum with an ice cube until it forms a firm ball, then saturate the area with cleaning fluid. With a soft cloth or piece of cotton dipped in the cleaning fluid gently work the gum out of the mittens.

New Castle High Quintet Loses To Sharon 40-31

Tigers Assured Of Playoff In Section Three

"Ambling Andy" Butenko And Al Koszela Stars In Final Game At New Castle

LARGE CROWD ATTENDS GAME

With "Ambling Andy" Butenko, as their spearhead, the Sharon High Tigers basketball team assured themselves of at least a playoff in the Section III title race with Aliquippa by defeating New Castle High here last night at Washington gym floor before the largest crowd of the year, 40 to 31.

It was Sharon's 12th win of the Section III title race against two defeats, while New Castle finished with its poorest record in many years in sectional competition, winning but three and dropping 11.

Butenko Pads Lead
Big Butenko, 6 foot 4, and strong, had 15 more points last night to make his Section III total for the year 217 and will probably be the leading scorer unless Dougherty of Ellwood gets hot tonight at Aliquippa and dumps in over 25 points. Coach Pete Colliodi took the wraps off Butenko last night and let the big boy shoot as often as he wanted to. In the first half "Ambling Andy" dumped in five field goals, and got but one the last half, having a number just barely miss the covered hoop.

Koszell-Whittaker Stars
Starring for New Castle in their final game were Al Koszela with 16 points, high for the battle, and Dick "Spees" Whittaker with seven points. Both boys played a great game as they bowed out of scholastic competition. Left for next year will be Stan Grybowski, Don Black, and Gene Gribble off the first team that started last night.

Sharon took a big lead at the outset of the game, running the count to 11 to 3 with the first period half gone, and finished 16 to 5.

Close at Half
New Castle's best effort was in the second period, when the locals starting clicking and led by Koszela began closing the first period gap. It was 19 to 9 Sharon with four minutes of the period over, and at the end it was 22 to 21 Sharon with Koszela and Whittaker plopping in field goals. New Castle won the period 16 to 7.

Sharon was a worried ball club as they left the floor at intermission. They saw their tremendous lead wilt as the Castles got "hot" and really put on the pressure.

Sharon and New Castle came back for the third stanza and immediately the Tigers went into a defensive state and stayed there, being content to just hold their lead. New Castle lost some of its cunning during the half, and consequently it was a low scoring period. Sharon won the period 9 to 3, and led 32 to 24 at the third quarter drew to a close. This looked like a safe lead.

With four minutes of the fourth session gone Sharon led 35 to 26 and they just coasted in from there with plenty to spare, the final being 40 to 31.

New Castle High can pack the basketball uniforms away for another season in 1946-47, but Sharon has to keep going with the state championship their goal.

County League

Meets March 18

President Alce Samuels of the Lawrence County Basketball league today issued a call for a meeting of all teams interested in the 1946 league to meet at the Sporting Goods store at 7:30 o'clock the night of Monday, March 18.

It is understood that a number of new teams will seek franchises in the popular county league this summer. In addition to the six last year, Ellwood City won the championship last year over such teams as the Moose club, Wampum, Hillsville, Edenburg and the American Legion.

Aliquippa Hi Ellwood City Crucial Game

Lippe Men Must Defeat Wolverines To Remain In Section III Title Race

With the Section III cage race rising to a crescendo, the Aliquippa-Ellwood City clash at the "Quips" floor tonight takes on a white-hot hue, since the valleyites can't drop this one and stay in the race.

With Sharon defeating New Castle last night on the Castles' court, the Lippe men have to annex tonight's clash to tie with the Tigers. In the event they do, they will meet the Sharon five in a playoff for the league title on Monday, February 25, at the Beaver Falls gym.

"Wolves" Determined

Ellwood City, which has known its knocks in the sectional swirl this season, is determined to upset the "Quips" and eliminate them for the race. The Tubers are primed to loose Joe Dougherty and company and throw a well-timed monkey-wrench into the fast-moving sectional machinery.

The Gills passers own five wins in the loop for the season and come into the Aliquippa fray fresh from a victory over New Castle. Nothing would please the Ellwoodians more than to dump the valley five. That would be sweet balm on quite a few wounds.

Quips Tough

Nate Lippe's machine has earned its right to battle for top honors in the county. They got their golden chance when the Sharon Tigers eliminated their neighbors, the Ambridge passers, and they mean to fight through to the final wire.

Haney Quits

Coach Lippe's chances got a jolt today when it was learned that Haney, regular guard, had turned in his uniform on the basis that he was not getting to play enough. He is the fourth high man in scoring on the Indian squad with 71 points and his place will probably be taken by Zuzak in tonight's battle. The valley team defeated the Wolverines in their first meeting on the Ellwood floor, 46-38, after the Tubers led them 25-18 at the half way mark. The Gills men went into a sleep-walk in the last two frames and the "Quips" slipped in 28 points to walk off with the ball game.

Fans To Pour \$70,000 Into Garden

Offers To See Non-Title Bout

By CASWELL ADAMS

(International News Service Sports Writer)

NEW YORK, Feb. 22.—Experience and boxing skill: value of having met Billy Conn twice; two linkings of Tami Mauriello. These are the attributes of Gustavus Lesnevich tonight in Madison Square Garden.

Physical excellence through recent fights, whereas his foe has fought less than one combat round in the last four years; imagination; two beatings out of three tries by the identical Mauriello are the assets of Lee Oma, the Lesnevich foe.

All of which adds up to the definite fact that approximately 15,000 fight fanatics will brave the rigidity of this town tonight and will pay about \$70,000 to watch this non-title affair. In the old days such a sum of money was considered rather incredible. Nowadays it's run-of-the-mill booty.

Jim Jeffries Is Felled By Stroke

BURBANK, Calif., Feb. 22.—(INS)—James J. Jeffries, former heavyweight boxing champion, was critically ill at a Burbank hospital today, his entire left side paralyzed from a stroke three days ago.

However, hope for his recovery was held out by his physician, Dr. William Nethery, despite the one-time champion's advanced age, 70 years.

Dr. Nethery said: "There were some blood clots on the brain, but Jeffries registers only moderate weakness and his chances for recovery are good unless there is recurrence."

THERE is no questioning that Charles French, fish commissioner of the state, will be greeted by a crowded Cathedral dining-room when he comes here April 4 to be the principal spokesman at the Lawrence County Sportsman's banquet. Mr. French was unable to attend the Old Timers fete because of illness in his family. . . . Announcement by Fish Protector Clint White that trout will be stocked here, commencing Monday, was very welcome news to fishermen. . . . Largest trout taken from any county stream last year was a six-pounder caught by a Mr. Baker of Ellwood City. It was caught on a dry fly at McCracken's hole in the Slippery Rock.

Charlie Scaglione, local salesman, reported today the Sons of Italy, propose to enter the Lawrence County baseball league this season. Candidates for the team are requested to report at the Sons of Italy hall at 2:30 p. m. Sunday. . . . Among those who have replied to the Here & There Fish and Hunt Quiz is Dick Roberts. Andy Dadds also intends to submit an answer, he reported today and Jimmie Cypher who likes his trout and bear is also planning to forward a reply. One of the hardest questions concerns how to tell whether the deer is a buck or a doe, according to Neal Williams, hunter for many years. It is likely that he and Jack Sines may get together and toss a couple of replies at Here & There.

Jimmy Bivins is an eight to five favorite to defeat Jersey Joe Walcott, Monday night in the Cleveland, O. Arena. Larry Atkins, the Arena matchmaker, is firing out lithographed reports that the winner will be matched with the winner of the Joe Louis-Billy Conn fight. Among Walcott's wins is one over Joe Bakst, the Kulpnont cool miner and another over Violent Ray. Ernie Blandin, 245 pounds All-America tackle from Tulane and John Harrington, a star end with Marquette and more recently of the Fourth Air Force, are the latest gridders to sign with the Cleveland Browns of the All-America conference. . . . Sugar Robinson vs. Sammy Angott bout is described as the "dream match". One of em it apt to dream before the fight is ever March 4.

Bob Swisher, former Northwestern U. backfield star who went on to play good football for the Chicago Bears, has announced his retirement from the sport. He served three years in the navy before returning to the Bears last fall. An injury hampered his play. . . . Billed as the "world's championship" basketball tourney, a six-day cage event will be held in Chicago stadium starting March 25 with 14 of the best teams in the country scheduled to compete. Leading the list are the Port Wayne Zollners, New York Rens, Baltimore Bullets, Philadelphia Sphas and the Midland, Mich. team. . . . There are 75 aspirants for the post of head football coach at the University of Pittsburgh, which means 74 disappointments.

Score Is 21 To 17 In Junior High Battle At Mahoning Floor, Pakovitch Stars

Paced by Sam Pakovitch, their sensational young forward, the Mahoning Junior High team defeated the Union Junior High yesterday at the seventh ward floor, 21 to 17 with "Paky" getting 13 of the points. Best in the Union lineup was Hoover with nine points.

The Rees Flannery coached Mahoning will battle the Ellwood City team next Tuesday with parents of the Mahoning players as special guests. It was announced.

March 7, at the Rock Springs bridge, Slippery Rock creek, for stocking of the Slippery Rock. Several shipments were announced Thursday, the first of which will arrive Monday.

Pittsburgh's pitchers and catchers have been working out the kinks for the past week in El Centro, Cal., but moved to San Bernado to join the rest of the team which arrived yesterday from Pittsburgh.

Frisch planned to break the big squad into two groups, working one section in the morning and the other in the afternoon.

Holdout Fritz Ostermiller arrived in camp and immediately went into a huddle with General Manager Ray Kennedy.

New Parking Meters Being Installed Are Of Different Type

Different Periods Of Time For
Parking Are Possible On
New Meters

New parking meters which are being installed in Washington and Mill streets are of the 12-minutes-for-one-cent type. If one desires he can insert a cent for 12 minutes and so on up to two nickels for two hours parking. However, a dime will not work and motorists should always turn the handle all the way back when the violation tag will drop according to Mayor John F. Haven.

The original cost of the meters was \$75. However, with a \$10 trade-in value on old Mark Time meters, it brought the cost to the city down to \$65. The Koontz Equipment Company, installers, has been allowed \$250 for each meter installed, which will be paid out of meter receipts. Ordinarily this money should belong to the city, hence the cost per meter will be \$67.50.

The mayor stated today that after the meters are installed and begin operating he would like to know from the motor-going public what they think of the new type. One hundred and five are being installed. If they prove satisfactory it is likely that several hundred more will be installed. There are now about 425 parking meters in operation here.

Ralph J. Schepp

Given Discharge

T-3 Ralph J. Schepp was given his honorable discharge from the Army at Indiantown Gap Separation Center on February 9.

Attached to the 11th Armored Division of the Third Army, he was later transferred to the 100th Infantry.

In service 43 months, serving 16 months overseas, Sgt. Schepp, was in the Rhineland, Ardennes and Central Europe campaigns.

Ralph's service record entitles him to wear the Good Conduct Medal, Victory Medal, American Campaign Ribbon and European-African, Middle-Eastern Campaign Medal.

A brother of Sgt. Schepp's, Tony Schepp, who is stationed in Reims, France, states that he will be home in the early spring. He has been promoted to the rank of corporal so that of sergeant.

They are the sons of Mr. and Mrs. Tony Schepp, 225 Pearson street.
